

【Important Announcement】

Beware of counterfeit products

Thank you for your continued patronage of our products. Recently, there have been rampant sales of similar or counterfeit products on the Internet, etc., with advertising claims that our original blade steel "VG10" (or "V 金 10", VG TEN, etc.) is used as the material. Consumers are urged to exercise caution when making purchases to ensure that what they purchase is indeed using our genuine "VG10" steel.

Please note that the performance and quality of the aforementioned similar or counterfeit products are significantly different from genuine products using our blade steel "VG10" (or "V 金 10") as material and we are not responsible for any deficiencies in quality or performance, or any damage caused by such defects.
